HENVI KAKLOTAR

CYBER SECURITY

SUMARY

Motivated and dedicated cybersecurity enthusiast with a solid academic foundation in Information Technology and a recently completed Master's in Cybersecurity. Experienced in hands-on vulnerability testing, penetration testing, and network scanning, with practical exposure to ethical hacking tools and secure coding practices. With a background in full-stack web development and business development, I bring a unique combination of technical and interpersonal skills. Currently seeking a cybersecurity internship to apply my skills in real-world scenarios and grow within the cybersecurity domain.

TECHNICAL SKILLS

- Cybersecurity
  - Vulnerability Assessment
  - Penetration Testing (Web & Network)
  - Reconnaissance and Enumeration
  - Password Cracking (Hydra, John the Ripper)
  - Web Request Analysis (Burp Suite, OWASP Juice Shop)
  - Custom NSE Scripting (Nmap)
- Programming Languages
  - HTML5, CSS3, JavaScript, C, C++, Java, PHP, .NET, C#
- Database Management Systems
  - MySQL, MS SQL Server
- Business Development
  - Client Communication, Project Understanding, Requirement Gathering, Proposal Drafting

EDUCATION

Master's Degree in Cybersecurity
Dr. Babasaheb Ambedkar Open University • 2024

Bachelor's Degree in B.Sc (Information Technology)
J.P. Dawar Institute of Information Science & Technology • 2021 – 2024

LANGUAGES

English • Hindi • Gujrati

EXPERIENCE

Self-Initiated Cybersecurity Training and Practice 2023 – Present

- Performed vulnerability assessments on OWASP Juice Shop and DVWA.
- Built and ran custom Nmap scripts for advanced scanning.
- Practiced password attacks using Hydra and John the Ripper.
- Used Burp Suite for intercepting and analyzing web traffic.
- Set up labs and joined CTF challenges to deepen hands-on skills.

Business Development Executive
Exowork Infotexh – 1 Year

- Handled client communication and project requirement gathering.
- Coordinated with developers to align proposals and delivery goals.
- Bridged business needs with technical execution for smooth project flow.

Projects

- Web App Penetration Testing
  - Assessed DVWA & Juice Shop; used Burp Suite to exploit common web flaws.
  - Learned: Web security testing basics.
- Custom Nmap Scanning
  - Created NSE scripts with TTL analysis for in-depth network scans.
  - Learned: Targeted scanning & data interpretation.
- Auction Management System
  - Developed a role-based ASP.NET app with MS SQL backend.
  - Learned: Real-world backend integration.
- Perfume Store (Frontend)
  - Built a responsive ReactJS site with Tailwind CSS.
  - Learned: UI/UX and frontend architecture
